

# HOW TO

## SHAPE BEAUTIFUL BROWS

- 1 Holding a pencil vertically as a straight edge (aligning it along the nostril and the inner corner of your eye), mark a small dot where it crosses the brow line—this is where your brow should start.
- 2 Next, change the angle of the pencil, holding it so it runs alongside the nostril to the outer corner of your eye, then mark a small dot where it crosses your brow line—this is where your brow should end.
- 3 Mark the arch of your brow at its highest point just above your pupil when looking straight ahead. Gently tweeze away any stray hairs outside of these dots.
- 4 Use the Brow Definer brush in the Tame Your Brows kit, to apply eye shadow that is a shade lighter than your brow color, to fill in any gaps or sparse areas.

**TIP:** Finish your look by taking a brow brush and lightly swabbing some of our Vitamin E Moisturizer as a wax to make your eyebrows polished, pretty and put-together.
