# YOUNGEVITY® MINERAL MAKEUP

SAMPLE PALETTE  
INSTRUCTIONS

## HOW TO SELECT A COLOR...

To color-match your skin, apply a light dusting of Youngevity® Mineral foundation to your jaw line. You should not see a line—in fact, you should not be able to see the makeup at all. It should blend into your natural skin tone. If it does, you've selected the right color!

(161021)

### MESMERIZING

An ebony blend created specifically for dark, African-American skin tones.

## CUSTOM BLENDING...

With such a broad range of foundation colors and tones, we find that most women can wear them straight out of the jar. However, some women prefer to customize their look by blending two or more of our foundations together. Another option is to blend one of our foundations with a bronzer such as *Lovely Glow*. Feel free to experiment with these ideas on your own to create your perfect face.
